

REPLACE YOUR LIQUID FUEL CELLS!

FlickerCell is a reuseable, battery operated, LED lamp cell that flickers like a real candle. Each reuseable FlickerCell™ can be used in your existing candle holders in place of traditional wax candles or liquid fuel cells .. No Muss ... No Fuss!

These are an excellent choice when ambiance lighting is needed along with the convenience of reuseable and long burning lamps cells.

Each lamp cell has an on/off switch on the top of the cell. They're affordable, costing pennies per day. Each FlickerCell™ has a **burn time of up to 350 hours**.

FOR YOU & YOUR CUSTOMERS ... SAFETY

- Flickering effect looks just like a real flame.
- Great for windy table settings.
- Fits in many types of holders.
- Very low purchase and operating cost.
- Eliminates possibility of burns to customers or employees.
- No spilled oil or wax, no damage to Menus, Tablecloths and Tables.
- Meets Local Fire Code regulations for "no open flame" venues.

They may be used indoors and out, in dining rooms, cafes, hotels, bars and spas. These unique lamps are economical and attractive. They will not blow out in the wind, and may be used when real flames are not acceptable.

SAVE OVER \$2000/YEAR ON YOUR FUEL COST !!

Based upon 24 tables burning 8 hrs/day- see the following saving calculations:

- HD36 (36 hour liquid fuel cell) 1 year cost = approx \$2500
- HD18 (18 hour liquid fuel cell) 1 year cost = approx \$4083
- **FlickerCell (350 hr cell) 1 year cost (including initial purchase) = approx. \$190**

Additional cost savings are also achieved since there is no waste or leftover fuel that must be thrown away. FlickerCell™'s are sold in cases of 24 cells. Each FlickerCell™ uses 2 AA Batteries. Batteries not included. Batteries are sold in cases of 24, 48, and 96.

LAMP CELL DIMENSIONS:

Height: 3.25 inches to tip of bulb - Width: 1 7/16 X 1 7/16 inches
